

CF 710

QUICK START GUIDE

Welcome to the Boundless Life!

We've written this guide to help you get the most out of your vape.

With the CF 710, we're excited to bring you a revolutionary device for wax, oils, and concentrates, that will change how you dab forever.

No more dangerous fire. No more fragile glass. Just hold and dab.

Thanks for purchasing, and welcome to the Boundless Life!

- The Boundless Crew

Power On / Power Off

Press the Power Button 5x to Power On/Power Off.

The battery capacity indicator light (located above the USB port near the mouthpiece) will flash once to indicate that you have turned it on or off.

Press Power 5x to power on/off

Heat and Enjoy

The CF 710 is On Demand so you simply hold the power button down to start heating.

The safety timer will shut off the device after 15 seconds to prevent overheating.

Press the button 3x to enter Mode B and the CF 710 will heat up for 15 seconds without having to hold the button down. Exit Mode B by pressing the power button once.

HOLD the Power Button down to begin heating

Press 3x to heat for 15 seconds without having to hold the button down

Changing the Tip

Unscrew the attached heating element counterclockwise off the CF 710.

Replace with the other heating element and screw on clockwise.

Rapid USB Charging

Our rapid charge technology allows you to reach a full charge in 2 hours.

A red LED light will display while charging and turn off once fully charged.

2 hours to Fully Charge

Long Battery Life

The 710 is powered by a battery that can run for about 10 sessions on a full charge so you can enjoy up to 60 minutes of concurrent vaping.

Cleaning Your Device

Start by holding your device over the concentrate dish to catch any falling residue.

Press the power button 3x while the unit is on to enter Mode B and “burn off” any excess material that has built up on the heating element.

Clean every 3-4 charges to prevent excess build up.

Press 3x to initiate “burn off”
